

BASIC CAKES

$1\frac{1}{2}$ cups mix
 $\frac{1}{2}$ cup sugar

$\frac{1}{2}$ cup water
1 egg
 $\frac{1}{2}$ tsp vanilla

Stir sugar into mix. Combine water, egg, and vanilla. Add half of liquid to dry mixture and beat 2 min at medium speed on electric mixer. Add remaining liquid and beat one min at low speed. Pour batter into 9" layer pan $\frac{1}{4}$ the bottom of which has been lined with wax paper. Bake in a moderate oven, 375* for 25 min. This makes one 9" layer or 12 cupcakes.
